Subject: Hoosick

Thank you for taking the time to meet with Saint-Gobain yesterday. We believe that maintaining open lines of communication with the Village and the DOH has been instrumental in the process of moving forward quickly toward restoring the public water supply in the Village of Hoosick Falls. We found yesterday's meeting with EPA to be equally constructive and helpful.

On a more mundane topic, thanks for the lunch recommendation. The restaurant was not the place I went to in December but the food was very good.

Finally, I meant to mention to you yesterday that the Union Times may run a story regarding Saint-Gobain's other operations in the area of Hoosick Falls, including Poestenkill. That facility used very small amounts of dry PTFE and we have been told by the Town Manager that the Town is sampling the public water for PFOA. We have heard nothing further regarding the sampling or results, but we did not want you to become aware of this first from the newspaper.

Enjoy your weekend and I'll see you in Hoosick Falls on Thursday.
